

# Two Feathers Healing Formula

A Private Association Membership

**Two Feathers Healing Formula is a unique American Indian herbal compound** that has met the needs of ailing civilizations for centuries. This all-natural remedy was sent to us from a distant past when knowledge was more of the spirit than of the intellect.

There is a great sincerity and respect for this healing formula at every stage of its preparation. Those who handle the compound, including myself, feel blessed to be a part of a special age-old rite. Still produced in the original Native American manner, each herb is cured in smoke ovens and mixed in wooden bowls. Metal is never allowed to touch the formula, as it would destabilize the electrolysis process provided by the components in the compound.

I would like to enumerate some of the ways this healing formula has been used, related to us from the experiences of thousands of modern Americans since 1977 and many Native Americans prior to this period. Please read the following information very carefully as it contains answers to many of the most frequently asked questions.

## **Optimal Dosage & Usage Instructions**

Tradition has shown that the best results have been achieved by taking approximately 600 milligrams of this compound, which is an amount that will fill a double "00" vegetal capsule. Take this dosage once a day, either one hour before breakfast, or on an empty stomach. It can also be taken just before bed on an empty stomach. Vegetal capsules can be purchased at your local health food store and should be filled only at the moment of use, as prolonged contact with the salve will cause the capsule to dissolve.

I personally use one eighth of a teaspoon of this compound rolled into a ball and swallowed with 8 ounces of spring water, once a year, for 6 weeks as a preventive and detoxifying measure. If a person has had a malignancy for more than six months, are at a critical point with their illness, or have undergone chemotherapy, radiation or surgery, they usually will take the compound twice a day, utilizing the traditional method.

The traditional method of use was to take the compound daily for fourteen days, stop for two and continue taking for another fourteen days. The program of two weeks on and two days off is usually followed until the jar of compound runs out.

A two ounce jar would last for six weeks in this manner; a cycle healing with the compound in the body. This particular regimen has been used for internal malignancies of the liver, kidneys,

colon, prostrate, female sex organs, breasts, lungs and throat areas. It has also been used for a variety of viral conditions, yeast infections, fungus, flu, colds, strep throat, mouth diseases, parasites, constipation, ulcers, venereal diseases, lupus and much more.

The Native American producer of this compound prefers the forty two day regimen, as described above, for a thorough cleansing of the blood, lymphatic system, liver, intestinal tract and colon. He also uses a very small amount of this compound directly on his dry toothbrush, as it works well on gum disease and for removing plaque. He believes that while one applies the compound externally, it should be taken internally as well to balance out the primary condition that brought on the exterior situation. The protocol for skin cancer is to apply the compound topically after the fifth day of internal use.

### **Common, But Harmless Side-Effects**

It is common to feel a slight queasiness in the stomach area for a few hours after ingestion, as the body system becomes more alkaline and as certain parasites and bad bacteria die off. Stools usually take on a darker coloration, as toxins are released from the body. Certain individuals may even notice white mucus in the stools, a sign of yeast (*Candida*) elimination.

Nausea, dizziness, cramping, bloating, queasiness have been experienced by people with yeast and fungal infections, as the die off occurs. When nausea persists and is overwhelming, a person may take 2000 mg. of powdered vitamin C, bottled, natural fruit juice, or even eat some organic fruit, one hour after taking the compound. *It is recommended that those with candida problems take a probiotic complex, with at least 12 strains of friendly bacteria. At least two capsules should be taken in the morning on an empty stomach for 15 to 30 days.*

### **From our report files of people who have used Two Feathers Healing Formula over the years, we have gleaned the following basic facts:**

When working with any malignancy located in the lower abdominal region, or close to the reproductive organs, the salve is used, in addition to oral use, as a douche or an enema, prepared by mixing one-quarter level teaspoon of the compound with one ounce of distilled water. This solution is then held within for at least thirty minutes with a douche, or all night with an enema, sleeping on one's stomach. Please note: If a person has a very toxic condition of the body, one may want to start with one eighth level teaspoon of salve mixed with one ounce of distilled water for the first three applications of douche or enema. Some people have found that an air syringe or a simple turkey baster will do as well.

The common use for chronic fatigue syndrome, viral diseases, yeast and fungal infections, parasites and AIDS related symptoms, is to take the compound orally once a day, or twice a day if the situation has been present in the body for more than six months, along with a retention enema (1/4 level teaspoon with 2 oz of distilled water) inserted into the rectum every other night

before bed. The mixture is left inside until the next morning with the individual sleeping on their stomach.

With genital herpes the same protocol is used with the individual applying the compound also topically on each lesion every three days. Expect the lesions to open and ooze puss. The compound is continuously applied every three days until oozing stops and the lesions disappear. Lastly, the compound should be applied to the base of the spine, a spot no larger or thicker than a dime. Moisten skin first with distilled water and then paste the compound to the skin. This small area will open and expel puss. The compound should be applied every three days until puss has stopped oozing. People have usually continued to ingest the compound for one month after all oozing has stopped.

## **Tablets are Now Available!**

We now carry Two Feathers Healing Formula in tablet form to be taken for detoxification and prevention. There are 60 tablets in a bottle. Normally two tablets are ingested daily: one tablet taken first thing in the morning on an empty stomach and one tablet at night, right before bed on an empty stomach. Usually the compound is taken for fifteen days with a pause of two days, and then taken again for fifteen more days. Tablets can be utilized in this manner two or three times a year.

## **Natural Immune Boosters**

There are certain natural supplements you can take to strengthen the body's system while working with a malignancy, to bring it back to a state of harmony and balance. Some good choices are:

*Amla Royale, 1/2tsp 2X per day & Maitake Complex, 2 capsules 2X per day, or powdered colostrum. The usual dosage for the colostrum is one tablespoonful, three times a day. Powdered colostrum can be mixed with spring or distilled water. It can act to kill off bacteria or viruses when your immune system is too weak to do it itself.*

*Lastly, Digesticol is a very good digestive enzyme formula to aid in digestion and better elimination. With this program, it is conducive to adhere to a semi-vegetarian diet with plenty of raw vegetables and fruits and their juices taken separately. If I had a malignancy, I would place an emphasis on organic food from a health food store. Of all the animal proteins you have to choose from, I would only eat raw or cooked fish (fresh or soaked in lemon juice,) organic raw eggs, or slightly cooked eggs, sprouted wheat sprouts, nuts milks (from almonds, filberts or pecans,) salads, avocados, raw olive oil, flax oil, raw butter, using vanilla and Stevia to my nut milks for flavor and sweetness. With my wheat sprout meals, I'd eat them with flax oil and raisins and or some other dried or fresh fruit. Or I'd eat the wheat sprouts with avocado and Braggs Liquid Aminos or Real Salt and maybe a tomato and other veggies like alfalfa sprouts.*

## **Using the Healing Compound Topically**

Many have told us of their experiences using the compound topically on warts, moles, plantar warts and skin tags. The experimenter first cleanses the irritated area with soapy water, applies a small pea-sized amount of the compound around the base and then covers it with a bandage that can protect it from moisture when bathing. If the compound is a little dry, place a few drops of distilled water onto the skin so the compound can adhere well. In the case of cysts and open or sealed malignant sores and tumors, the compound is usually applied directly on the center of the irritated area. (The spot treated with the compound should not be larger than a dime.) The bandage is left in place for three days. A slight swelling may occur and at times yellow toxins may ooze from the covered area. After three days, the bandage may be removed and the area cleansed. The area may then scab over and heal. After the scab has appeared, many people apply natural vitamin E oil to the area to help with proper skin formation. If the desired result is not achieved in the first application, many have cautiously applied it two or more times. A process used by a naturopathic doctor for the elimination of plantar warts was to apply the compound once for a period of three days, then remove the bandage and scratch an "X" over the plantar wart with a sterilized pin, apply the compound again and leave for three more days. He states that this process repeated three or four times has usually done away with this type of wart. It has also been reported to us that one half of a level teaspoon of Two Feathers Healing Formula may be mixed with 2 ounces of distilled water and used to bathe external areas of the body where fungus is present and left on the skin to dry until the next bath or shower, when, the process would be repeated.

## **Tell Us Your Experience with Two Feather Healing Formula**

We would like to mention that your experiences with Two Feathers Healing Formula products are of great interest to many other people. We would be most happy to receive your comments in 50 words or less please, to make available to others of similar interest. The Native American producer of Healing Formula has used it once a year since childhood as a great preventative and attributes his robust health and disease free body to this formula.

**Dietary Recommendations:** one should abstain from sugar, alcohol and dairy products (*except organic raw butter*) while using the compound. If working with a malignancy, people usually avoid red meat and eat plenty of raw vegetables, brown rice, and a handful of organic almonds per day, along with plenty of fresh fruits, especially organic concord grapes.

**DISCLAIMER:** Please note, the producers and distributor of Two Feathers Healing Formula do not make any claims for the effectiveness of the product, nor do they recommend any particular usage. The choice of process used in the various forms of application or ingestion of Healing Formula products is the sole responsibility of the customer. Favorable results from the use of Healing Formula products cannot be guaranteed entirely, since each person's disorder or affliction is individual in nature and one must thereby expect results to vary accordingly. In some cases, scarring may occur with topical use and the distributor cannot be responsible, as this will vary with individuals and methods of application.

Two Feathers Healing Formula products are offered as nutrient systemic and skin care aids, not medicine. Users of the product should be aware that any use of alcohol while using the compound will nullify its effectiveness and may cause stomach distress. This product should not be used by pregnant or nursing mothers and should be kept

from the reach of young children. Two Feathers Healing Formula has a long shelf life when kept sealed at room temperature and should not be refrigerated. Please use a toothpick or plastic utensil to handle salve. Metal should not touch the compound. Furthermore, Two Feathers encourages holistic physician consultation for diagnostic determinations. Absolutely NO REFUNDS for open or used jars!

## **FLIGHT OF THE SPIRIT** by Robert Roy

Rediscovering ancient philosophies and wisdom brings into focus the universal truths ignored today by most of modern science. These truths are simple, yet represent experience and knowledge acquired since the dawn of mankind, when we found the healing remedies we needed in the diverse vegetation mother earth had provided for us. The cultures and traditions of the thirty countries I have visited in my travels have given me a unique opportunity to reawaken this special sight or sense, which is lost to the majority of Westerners who have lost the ability to experience simple truths.

It began with my introduction to oriental philosophy and thought about twenty-six years ago. At the same time, I was introduced to the proper way of eating, and learned the universal laws of macrobiotic diet, the balancing of body, mind, and spirit, as well as the means to strengthen our physical beings. These discoveries in my travels opened a door to my consciousness as I explored different forms of healing. My interest grew, and I began to participate in the natural healing process I saw going on around me.

I returned to America fascinated with all aspects of natural healing and became engrossed in the successful work Royal Raymond Rife undertook early in this century with his famous Rife Generator. For many years I did research with several young scientists to evolve a working model of the generator that gave us much satisfaction. This, I thought, was an ultimate simple truth. And yet there is always more. Right in my own back yard, so to speak, I met a Native American elder who introduced me to a complex herbal formula held secret by his family for over a hundred years and shared only with members of their family and tribe. At times, profiteers tried to recreate the formula on their own, succeeding only partially. Although these partial formulas enjoyed limited success, they could not come close to the healing capabilities of the original formula.

For a long period of time the original formula was kept from public view because of the respect and sacredness with which the elder and his family held this formula. The elder told me that the formula had been used for a whole host of imbalances of the body: malignancies, tumors, open sores, food poisoning, liver problems, skin infections, colds, flu, as well as wart and mole removal. He recounted his own experience since 1977, when his father passed on to him the secret of the formula. Since then he has seen the formula heal Candida albicans, chronic fatigue syndrome, skin malignancies, lupus, internal growths, all virus in origin, and much more.

The formula, he stated, when taken internally is attracted to wherever an imbalance is situated in the system. It begins the healing work immediately while strengthening the body and aiding its ability to overcome the disease. As an enema, it is a great colon and intestinal cleanser and detoxicant, saturating the lower organs like a beneficial balm. Taken as a douche, its cleansing ability is immediate and thorough. The elder also told me of a lady in his tribe with a cervical disease. He suggested that she douche with the compound every other day and take it orally; the regimen healed her completely.

No ancient healing method I have ever encountered could boast of so many uses on the human body. I had found not only a simple truth, but also a golden one. Some of us who hear of, or experience such a gift of nature in this day and age are happy that the compound may now openly take its place among the many incredible healing gifts of nature. One can only feel sad for the great number who will never share in these treasures and instead will remain mired in modern therapies that do not work and serve only in the degeneration of their spirit.

If I could leave you with one thought, it would be this: Keep an open mind when making health related decisions. Be still, go within, for some people have greater intellects, but all of us have the same portion of universal wisdom, if we just open the door.

©1994 Robert Roy TWO FEATHERS, Inc. (Some of the information in this literature has been changed to reflect the experience and expertise of Stephen Heuer, Nutripath; those portions are in italics.) All products mentioned are available from Synergistic Nutrition.

## **The Three-Day Liver, Gall Bladder Flush Program—Available from Synergistic Nutrition**

A three day liver gallbladder flush is essential to cleaning out the liver at an accelerated rate. Repeating this flush every other week for a series of 4 to 12 times has proven to be life saving for many people.

By cleansing the liver, you are cleansing the organ that cleanses the blood which cleans the rest of the body. I know from personal experience how good I felt emotionally after my liver gallbladder flush. Request your Liver Gallbladder Instructions from Synergistic Nutrition. They can be sent in an email to you as well.

## **Testimonials on Healing Formula**

“As per our conversation 2/20/95, I am writing to let you know how successful treatments have been with the use of Compound X. I have used the salve topically for the removal of:

1. Moles (some deep-rooted)
2. Warts
3. Toenail fungus - (cured after 30 years of unsuccessful treatment).
4. Molluscum contagiosum (a young relative was diagnosed and successfully treated)
5. Gum abscesses (when mixed with dentifrice).

As ingested it has cured:

1. A persistent virus
2. Breast cysts.

Compound X is to me the ultimate cure for any ailment befallen the body in these virulent and polluted times. I am most grateful to have found this wonderful product.

I wish you the very best, and to end with your quote, “God Bless!”

Most sincerely,  
Barbara Marshall, Bayport, New York.

May 2, 1996

I was diagnosed at LA/USE hospital with benign cysts and at one point they were planning to remove my right lung to remove just one cyst. My ex-wife died while having 3 cysts removed from her brain. Tragic loss, which could have been avoided by using Compound X. After 10 weeks I have successfully ejected an excess of 30 large to medium cysts (from olive size to raisin size) and approximately 4 cups of black blood and pus. Compound X is a miracle.

Ben Harris,

July 1996

I was diagnosed with Melanoma skin cancer, having numerous tumors under the skin and abnormalities in my liver. After using Compound X treatment, the biggest tumors became sores, which the cancer drained from. After another x-ray of my liver no abnormalities were found.

Thank you,

Ted Picket, Alexandria, OH

April 30, 1996

Last December our beautiful longhaired calico cat, Kassandra was seen by a vet who thought her nose growth was probably cancer. Compound X was used internally for about 1 1/2 months. We also applied it topically by just holding it on her for a few minutes, but she wouldn't tolerate it longer than that. The growth scabbed over and came off several times. Each time the scab came off some nose tissue was gone. Compound X cured her & the growth is completely gone & I believe the lost tissue is slowly regenerating!

Gratefully yours,

Donna & Dave Konstan, Fullerton, California

-----

February 1997

I am thrilled with the results of Compound X. I had a tumor that was wrapped around my optic nerve. Forty doctors had looked at it and all agreed that if it were surgically removed I would lose my eyesight. My nutritionist recommended Compound X. My alternative was to lose my eyesight, which I did for a few short and terrifying episodes. I started taking the compound internally and as an enema right away. A large boil developed on my back within ten days and drained. The tumor started to dissolve and was draining through my sinuses, swelling my cheek and eye area. I could even feel it draining right through my eye, a burning sensation, but my eyesight remained intact throughout the whole episode. Afraid of putting a poultice on my cheek and disfiguring my face, I put two poultices over my eyebrow in such a way as to draw the tumor out in a place where it would not leave a noticeable scar. This process lasted for about eight weeks until the eye stopped draining and the poultice fell off of it on its own when a healthy layer of pink new tissue had grown underneath the drainage area. There was no infection and at the hospital the MRI revealed no growths. During this time I followed a strict juicing and vegetarian diet aided by supplements. I found I especially craved kale, carrot, celery, and beets in a juice or steamed. Spirulina and protein shakes helped with energy levels. The most important thing seemed to be to make my system as alkaline as possible. One of the hardest things was being patient through the process and having people to talk to about it. You, Robert, were extremely supportive through this time. Now whenever I recommend the compound I promise to be available to listen to the experiences of others. My eyesight is completely normal and I have returned to work and have a prosperous and healthy existence. I go on maintenance with the compound once a year, but the most important of all - I have shared this remedy with other special people and every one of them is alive and well. Your product is not only a lifesaver, but also truly a miracle. God bless all of you most tenderly for the valuable work in keeping this product available.
