

Maximize Your Workouts with MAP

Would you like to **optimize your workouts, build strength** and **increase muscle mass** without taking dangerous steroids? If so, you need MAP! MAP is designed to help you get the most out of your workouts so you can be leaner, fitter, and stronger! MAP naturally helps **increase muscle mass** and **reduce recovery time!** It will give you the extra edge you need to push yourself harder and train smarter!

What is MAP?

MAP™ is a dietary supplement that contains the MAP Master Amino Acid Pattern® a unique amino acid profile that provides a 99% Net Nitrogen Utilization®(NNU) for body protein synthesis (BPS), the highest among any dietary protein or protein supplement. MAP produces ZERO fecal residue because 99% of it is absorbed and utilized. MAP is rapidly digested and typically only takes 23 minutes to digest fully. Taking branched-chain amino acid supplements may decrease fatigue during prolonged aerobic exercise, maintain muscle mass and aid in muscle recovery after exercise, according to the International Society of Sports Nutrition. It has **no harmful side effects or contraindications**, and **contains no sodium, sugar, or fat**.

Whether you are an amateur or professional athlete, MAP is a **100% natural** way to **improve your workouts**.

Many people report that they notice a difference after using this product for only a few weeks. Studies have shown that using MAP during physical activity:

→ **Increases muscle mass**

→ **Increases muscle strength**

→ **Increases muscle endurance**

→ **Reduces recovery time and muscle soreness**

→ **Increases energy levels**

MAP VS STEROIDS		
	MAP	Steroids
EFFICACY	Effective	Effective
SAFETY	Safe	Dangerous
RESULTS	Permanent	Temporary
COST	Moderate	Very Expensive
USE	Allowed	Banned
WATER RETENSION	Normal	Excessive
